EXPERIENCE

Web Developer Trainee

Nov 2023 – Oct 2024

Naag Foundation Trust

- Built and maintained responsive web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, enhancing the NGO's digital presence and improving online user engagement.
- Implemented **interactive UI components and RESTful API integrations**, ensuring smooth data flow and performance across frontend and backend modules in live NGO projects.

Web Developer

Nov 2024 – Present

Naag Foundation Trust

- Developed and maintained a **responsive and user-friendly website frontend** using **HTML, CSS, and JavaScript**, enhancing the organization's online usability and accessibility.
- **Integrated RESTful APIs** built with Django in collaboration with the backend team, enabling dynamic updates for events, news, and announcements.
- **Implemented new interactive features**—including an event listing module, contact form, and donation interface—resulting in improved **user engagement and data accessibility**.

PROJECTS

Team Talk | **MERN Stack (Socket.io, AWS S3, JWT Authentication)**

- Built real-time **chat and notification system** using **Socket.io**, supporting both **direct messages** and **group channels**.
- Implemented **user authentication, channel creation, and image uploads** via **Amazon S3** for secure and scalable storage.
- Designed **RESTful APIs** to manage users, messages, and channels, ensuring reliable backend performance for real-time communication.

Unireach Bharat | **MERN Stack (MongoDB, Express.js, React.js, Node.js, AWS S3, UPI Integration)**

(A nationwide service listing platform for multiple sectors — Healthcare, IT, Startups, Farming, and more.)

- Developed a **full-fledged MERN application** with separate interfaces for **customers, businesses, employees, and admins**, secured with **JWT-based authentication** and **role-based access control**.
- Integrated **UPI-based payment workflow** for service registration, enabling users to scan, pay, and submit details verified by admins before listing approval.
- Implemented **cloud file management using AWS S3, Zod-based input validation**, and **API-level protection** with sanitization and rate limiting.
- Optimized frontend performance using **React Query, Zustand**, and lazy loading, ensuring a seamless, responsive user experience.

TECHNICAL SKILLS & CERTIFICATIONS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js

Database & Cloud: MongoDB, AWS S3

Tools & Platforms: Git, Postman, VS Code

Certifications: MERN Stack Development — PW Skills

Other Skills: RESTful APIs, JWT Authentication, Socket.io, Zod Validation, API Security, Cloud Storage (AWS S3)

EDUCATION

Meerut Institute of Engineering and Technology

Meerut, U. P

Bachelor of Technology — CGPA: 7.95/10 | Aug. 2019 – Aug. 2023

St. James School School

Hardoi, U. P

Intermediate — Percentage: 78.8% | March. 2018 – May 2019

High School — Percentage: 83.6% | March. 2016 – May 2017
